It is satisfactory and fun to see me progress and achieve objectives. Now I am playing with both hands at the same time with confidence, and I have started playing together with more accompanying clues and inventing my own songs. Singapore helped coordinate my left and right hands. I was using a piano application, but it was not personal and I had to solve it on my own. So I joined pianote and returned to the basic. Pianote helped coordinate my left and right hands. The explanations and instructions are very clear, so much to follow, and slowly noted that he was improving using a lecion skills to the next. It is structured to allow you to build the foundations, and the videos of tips and tricks make its reproduction special. The lessons are fun and the instructors are attractive. United Kingdom my 6-year-old daughter began to dance while she played. Before pianote and the world, I was completely lost in terms of knowing how to become a better music. All I would do is try to play songs, but without any of the structures and practices that are required to improve. And with face to face lessons, I wasn't progressing much among the lessons. But having access to liber video tutorials allows me to return as often as I need. My greatest advance has been independent hands control, which allows me to listen to rich music that I am creating for the first time. And winning that trust has allowed me to start improvising the pieces I learn. The moment of the bulb occurred when my 6-year-old daughter began to dance while she played! You must be doing something well if someone dances with the music that is playing.? Ontario, Canada if I taught me in this way when it was children, I would never have resigned. I decreased in pianote not only to learn how to play the piano, but also because Mental health was really suffering and I needed something positive to focus on that just for me. I like Lisa's teaching style, and I find out that I actually like to do the work and not mark a full lesson ' until I have mastered it thoroughly. And I like that I can take a lesson ' any time of day or night. I can't imagine there's a better way to learn. I can go back and review the details of any lesson ' over and over again if necessary. I can never do that with live lessons. North Carolina, USA U.S. The support he receives will keep him eager to learn. Try to learn on my own. This turns out to be very frustrating. I needed some guidance' more structure and more support. With pianote, I was inspired from the first video I saw. I can spend time learning every lesson' before moving on, and having questions answered helps a lot. Because the piano is new to me, the doubt will drag on. I feel like I can never play well. But the practice and awareness of the keyboard have been what I needed. The support you receive will keep you eager to learn and have fun with the love of the piano. Tennessee, USA U.S. When I play a song' n, I cry for joy. I was worried that I couldn't learn from lessons as I don't have a musical experience, but I went from not being able to read music to playing songs. When I played a song' n for the first time and sounded like the real song' n, I cried with joy. I've wanted to play the piano since I was a kid and the piano made my dream come true. With a little practice, I can now play large portions of the lessons songs without looking at the keys. And every time I learn a new chord and apply it to the song' it's as exciting as when it started. I was worried about the cost versus what I'll get from the lessons. Pianote is well worth it. It is easy to access and I like to be able to play on my own schedule. "Lisa makes learning the piano fun! Kenya played the piano while I He played guitar and it was magical. I've made a big step forward. My fingers are now lighter on the "and my left hand can play without always following to the right.On a safari away from home, I sat at the piano at a friend's house and was able to play "Bless the Lord Oh My Soul" in the ear using chords. We enjoy the music. I played the piano while my friend played the guitar and it was magical! The piano is fantastic and I have already recommended it to two friends. South Carolina, USA It's been years since I was so excited. Although I've been playing for over 10 years, there's always so much more to learn. And I've found it very rewarding to learn something new every time I visit Pianote. It's been years since I got so excited. They're great teachers, especially Lisa! She makes everything look fun and breaks it down into the simplest format for you to learn quickly. Florida, USA Mickey Mouse hugged me to play the piano. I have made steady progress in many areas, from technique to musicality and understanding of music theory in a practical way, even playing the first movement of the Sonata Moonlight without scores. It feels fantastic.And I had the most fun musical experience ever aboard a Disney cruise ship during the holidays. I found an unused piano in a meeting room and I sat down and started playing Christmas music. An employee dressed in a Mickey Mouse costume came in. I thought he was going to tell me to stop, but instead he came over and gave me a hug! Mickey Mouse was hugging me for playing the piano! United Kingdom The best investment I've ever made. I've been with Pianote for years and I keep finding new content every day to keep me busy. You'll be amazed at the variety and depth of the content available.Don't you fancy a 20-minute lesson? Just jump to a Quick Tips video or learn a song. Having the ability to choose the lessons I want in addition to receiving a clearly defined learning structure is brilliant.
